

PORCH MEASUREMENTS GUIDE

- A** External timber post width required
- B** Total timber height, from top of wall to top of rafter (remember to allow 150mm for ridge tiles/flashing).
- C** Post height including top plate. Rafters rise 75mm above the top plate.
- D** Porch depth, from house wall to front of timber.
- E** Any specified pitch of the roof. 45 degrees is our standard, but can be adjusted.
